often used when talking about a male while "actress" is used to describe a female.

Actor Job Description: Salary, Skills, & More

This is precisely the area of the modern training of the actor. The first stage in the training of the actor's control of his physical, mental, and psychical resources is the ability to relax. Because this ability seems to have little to do with the final achievements in acting, it is often disregarded, but it is basic to any expenditure of will and energy on his part.
