If it's a misaligned paper that caused the jam, remove the tray to make sure the paper is positioned correctly and reseal the tray. Sometimes you may find no misfed sheet at all, in which case you'll need to remove the paper stack, check to see if it's squared properly and reposition it back in the tray—all after taking a deep breath.

What should I look for in a set of desk trays? Organize your way to a more productive office. Give incoming and outgoing documents a place of their own with a set of paper trays. Fixed, tiered paper trays hold up well against frequent paper shuffling, while stackable trays give you the freedom to customize the storage space on your desk.
