Cm4200 Install Guide
Prep/Install Module: Begin preparing the system for installation by removing any wires you are not going to be using, leave some of the wire in case you need to use it in the future. Then wire up any relays, etc., and install the control module in the vehicle. Code Remote: Code the remote using the remote coding procedure shown in this manual.

I did find something interesting in the CM4200 S Controller installation guide - on Page 6 for Connector #1 it states "GREEN/ Red - This wire is used to power the (+) Ignition. This wire is also an input for the CompuStar used to monitor the status of the vehicle and for programming."

CompuStar CM4200 Manuals
CN7 RS232 Port – Firstech recommends not using this port for 1 or 2 way datalink connections. The protocol from the CM4200 and CM1000-S does not always match that of the current bypass modules and may cause issues. Power and ground are still available for this port however we recommend hardwiring all bypass modules.
